

Cairngorms National Park Woodfuel Events 2010

You are invited to attend a **FREE** seminar organised by the Cairngorms National Park Authority and the EU project Clim-ATIC:

'Wood fuel for the Construction Industry'

With demand for renewable heat soaring, gaining expertise in wood fuel systems is a smart move for the building trade.

Installers, plumbers, builders, planners, building control officers and architects are among those this specially tailored event is targeted at.

Insight will be gained through hearing from existing installers, suppliers and users. There will be presentations on planning issues, building control requirements and financial incentives from a CNP Planning Officer, Architect and bio-mass development officer respectively.

After the day, participants will have a better understanding of the planning and safety issues surrounding the use of wood fuel heating systems and information on how to access further training.

The same event will be run twice to accommodate predicted demand:

11th May 2010 at the Boat of Garten Community Hall

18th May 2010 at Lonach Hall, Strathdon

Programme:

- Arrival and coffee from 9.30am
- Presentations, talks and question and answer sessions, 10am to 1pm
- 1pm free lunch
- 2pm till 4pm trade stands and networking

To book places online please go to <http://www.lowcarboncairngorms.org/woodfuel>

Or to book direct please contact Nicola Donald on 01738 877276 or woodfuelbookings@lowcarboncairngorms.org

For all other information about these or other events, or to have a stand space, please contact Clive Bowman on 01738 877204 or clive.bowman@perth.uhi.ac.uk
